

CARE OF SCORPIONS

- **Water**
 - Ensure sponge is kept wet, but not overflowing with water.
- **Food**
 - There are 2-3 crickets already in with your scorpion. These crickets are enough food for the scorpion during the entire loan. Make sure that fresh carrot is added every other day for the crickets to eat.
- **Cleaning**
 - Remove any old carrot when needed.
- **Handling**
 - These animals are NOT to be handled.
 - Adults can carefully remove bark so students can have a closer look at the scorpion
- Please make sure no cleaning supplies are sprayed around these animals
