

# Care of Tree Skinks

- **Water**
  - Check daily, top up or change when dirty
- **Feeding**
  - Feed approximately 20 mealworms sprinkled with insectivore 3x week (Monday, Wednesday, Friday)
  - Fresh fruit and veg can be offered every now and then. Chop food into little fingernail sized pieces and sprinkle with insectivore. Remove uneaten food the next day
- **Heating**
  - Leave light on as instructed. Replace globe with same wattage if globe blows.
  - **BE CAREFUL** – the cage around the globe may get hot, avoid touching when reaching into cage.
- **Handling**
  - Skinks are NOT to be handled
- Ensure cleaners aren't spraying chemicals around the enclosure as they are very sensitive to chemicals
- Please check lizards at least once over the weekend
